INTRODUCTORY

1906

1358780

The publishers take pleasure in presenting to their patrons the fifty-second annual volume of the INDIANAPOLIS CITY DIRECTORY with the assurance that the high standard established by our past issues has been fully maintained and that we have spared neither labor or expense to produce a work as thorough and correct as is possible for a publication of this kind.

This Directory contains 88,954 names, and on the basis of 2 1-2 inhabitants to each name we estimate the population to be **222,385.** This is an increase in names over 1905 of 3,312, and in population of 8,280.

Nearly 89,000 names are contained in this Directory, four-fifths of which are canvassed in duplicate, necessitating the handling of practically 160,000 names for which there is no rule, guide or regularity to spelling, thousands of which, although pronounced alike, would be spelled in many different ways and all correctly, and often members of the same family will spell their names in a different manner. It is impossible to publish a work of this magnitude without some errors, but years of experience have established a thorough system, which has reduced them to a minimum, and enables us to furnish Indianapolis with a directory which will be found accurate and reliable and an answer to almost every question which may relate to our city and its inhabitants.

ETCHING USED BY COURTESY OF THE COMMERCIAL CLUB

INDIANAPOLIS.

During the year 1905 Indianapolis has made remarkable progress in many ways. The city has prospered from commercial and professional standpoints more than it ever has in any year of its history. On every hand the resident of this "no mean city" can see evidences of prosperity.

It was the city's banner building year, more than $6,000,000 being expended for new structures, varying from humble cottages to mammoth sky-scrapers. Approximately, three quarters of a million dollars has been expended in the city's churches during the year, or will have been expended before the improvements begun in 1905 are completed.

In the matter of new residences erected in 1905, the outcome is very gratifying. But Indianapolis is more than a "city of homes." It is a hustling, thriving business city, filled with up-to-date and progressive establishments and dotted thick with great and growing manufactories, which have experienced the greatest year's business in their history.

That Indianapolis is attracting wide-spread attention in the world of manufacturing is evidenced by the fact that during 1905 no less than eighty-nine different manufacturing plants were established in the city, many of them coming from other cities. At the present time the city has almost 2,300 manufacturing establishments, in which approximately 45,000 people are employed, receiving $15,000,000 in wages annually.

Some time ago, Indianapolis became noted as the largest inland city in the country; that honor still rests with us. It is within thirty-five miles of the center of population of the United States. Another remarkable fact about the population of Indianapolis is that during the decade from 1890 to 1900, the city had a percentage of growth larger than any other city in America of its class.

Indianapolis is one of the greatest railroad centers in the country; for its size, it is THE greatest railroad center. At the present time, by means of thirty-two steam railroads and interurban lines, all of the great cities of the central west can be reached from Indianapolis in five hours. During the past year, five new steam roads were projected, most of which will, no doubt, be completed in 1906.

This city is the greatest interurban center in the world, all the lines terminating at the magnificent Traction Terminal Building, which is the only exclusive interurban station in the world. At this time, one and one-half million people are within two hours' ride of Indianapolis.

The Commercial Club, in addition to much other work, has appointed a boulevard commission that is planning the extension of Fall Creek Boulevard to the Benjamin Harrison Army Post. This enterprise seems now to be assured.

Among other accomplishments of this club, it may be said that the following enterprises are well under way:

The Citizens Gas Company.

A Coliseum that will seat approximately 16,000 people.

The building of an Armory for the Indianapolis Batallion of Infantry.

At the close of the year, the club realized, after eleven years of persistent work, the beginning of track elevation at Indianapolis. Railroad traffic is now being carried over elevated tracks of Massa-

chusetts avenue and Tenth street and work is already under way at Kentucky avenue and West street.

The Civic Improvement Association to look after the improvement of streets, shade trees, parks, distribution of garden seeds, etc.

"The Water Commission," the purpose of which is to keep in close touch with local conditions with reference to water supply, fire protection, insurance rates, etc.

The Methodist Book Concern Commission, whose object is to secure the location of the manufacturing plant of the consolidated interests of the Methodist Book Concern of New York and other cities.

The 1906 Year Book of the Commercial Club will narrate hundreds of accomplishments directly or indirectly carried on by the officers and committees of this, which now has a membership of 1,250.

Additional Facts.

Indianapolis is the fifth largest publishing city in the United States.

One hundred and seventy-five churches with a membership of 70,000.

Indianapolis is noted for its freedom from labor strikes and disturbances.

The resources of our banks and trust companies, aggregating $70,000,000.00.

All freight depots are located in the heart of the city within a radius of four squares.

A Belt Railroad surrounds the city, expediting shipments and furnishing factory sites.

One-fourth of the entire population of America is within a radius of 300 miles of Indianapolis.

Eight public parks within the city limits, covering 1,311 acres, and three parks just outside with 310 acres.

Indianapolis has the largest and most imposing monument ever erected by any government in honor of its soldier dead.

New $2,000,000 Post Office and Federal Building completes chain of fine public buildings, second only to Washington.

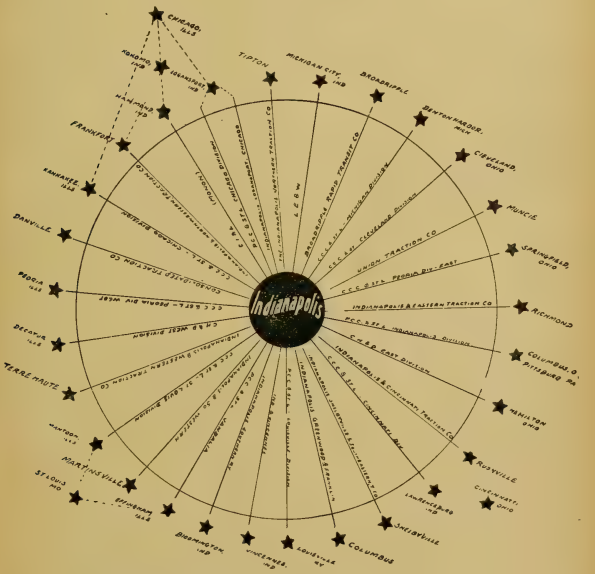
One hundred and fifty-five miles of electric street railroad, under one system at a four-cent fare with universal transfers.

One hundred and fifteen miles of paved streets; 500 miles of improved streets; 155 miles of sewers; 250 miles of water mains. Sanitary conditions the best.

Headquarters of the Independent and Central Union Telephone Companies. Rates for offices and stores, $2.00 and $3.50 per month; residences, $1.50 and $2.00.

Two new boulevards were constructed in 1905; the Fall Creek Boulevard, extending from Central to Capitol avenues, and the Pleasant Run Boulevard on the south side.

Indianapolis is noted the world over for its beautifully shaded streets and comfortable homes, second only to Philadelphia in the number of workingmen to own their own homes.



Indianapolis is within fifty miles of the most extensive coal fields in the world and is the center of the Indiana coal trade which is daily growing into larger volume. The main offices of nearly all of the Indiana coal mines are located in Indianapolis and the contracts for production of coal are made here. Steam coal for factory and similar use is laid down at the

door of the consumer at about $1.25 per ton, a price which is not duplicated, quality considered, in any other city in this Union.

Two hundred passenger trains arrive and depart from the Union Station daily and more than three times that number of electric cars enter the Traction Terminal Station each day.

Forty-five hotels, offering accommodations to all visitors, even during the many conventions that are held here and which are of such frequence as to average one for each day in the year.

Indianapolis is recognized by educators as having a model school system; seventy school buildings and two great High Schools, one Academic and one Manual Training. A large Central Library, containing 100,000 volumes, with eight branches in all parts of the city.

R. L. POLK & CO.'S

Indianapolis City Directory

1906.

STREETS AND AVENUES.

THE Street Directory is an alphabetical arrangement of the names of the Streets and Avenues of the city. By the decimal system of numbering houses recently adopted in this city, one hundred numbers are allotted to each square. On streets running north and south the numbering begins at Washington street. The streets running east and west are numbered East and West from Meridian street. All other streets not commencing at either of the above points are numbered in accordance with this system. The names and numbers of intersecting streets and avenues are given in the order in which they occur, which enables one to tell between what streets a certain number is. For instance, you have 820 Harlan street: by reference to the Street Directory, you find 800 at Lexington av. and 900 at Pleasant street; consequently, the place you wish to find is between Lexington av. and Pleasant street.

The marginal letters of the alphabet refer to the nearest street car line. For example, you wish to go to 520 E. Sixteenth: you refer to Sixteenth street in the Street Directory and find that 520 would be between Central av. and Park av. and the letter "B" in the margin, then by referring to the street railway lines you find the letter "B" is the Central av. line, which is the nearest car.

The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

$100.00 Reward Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake directory.

COURTS.

The United States is divided into nine Judicial Circuits, in each of which a Circuit Court is held for each district within each circuit. The act of Congress approved April 10, 1869, provides as follows: "The Circuit Court in each district shall be held by the Justice of the Supreme Court allotted to the Circuit, or by the Circuit Judge of the Circuit, or by the District Judge of the District, sitting alone, or by the Justice of the Supreme Court and Circuit Judge sitting together, in which case the Justice of the Supreme Court shall preside, or in the absence of either of them, by the other (who shall preside), and the District Judge." The State of Indiana comprises one Judicial District. The courts for the district are held in Indianapolis, New Albany, Evansville, Fort Wayne and Hammond. (OVER)

"A Stitch in Time Saves Nine"

A bolt tightened at the right time may save a serious breakdown causing loss of time and money.

"The Devine Wonder Knife"

is built for practical use, not filled with Nic-Nacs, as is the case with most combination knives. Especial care is taken to make the knife sufficiently strong for use of Mechanics, Machinists, Farmers, Teamsters, Electricians, Sportsmen, Etc., all rivets being countersunk. The temper is drawn in Screw Driver and point of Awl to prevent either from breaking. It is no more clumsy or awkward to carry in the pocket than an ordinary three-bladed knife. The blades are made of the best 85 carbon cutler's steel, and tempered to withstand hard usage.

The Pliers and Wire Cutters are Drop-Forged Tool steel (not steel castings), and tempered especially to do the work required of them, and give entire satisfaction in handling and cutting fence wire, baling and binding wire, harness rivets, etc.

The Leather Punch will be found indispensable for making various sized holes in leather for buckles, rivets, belt lacing, etc.

The Leather Punch acts as a swedging awl or marlin spike When Turned to the Left; especially adapted for use in Lacing Belts, untying knots, etc. Besides being a perfect leather punch and swedging awl, this tool is a perfect screw bit, making a tapering hole in wood for various sized screws When Turned to the Right.

The Screw Bit and Screw Driver features of this knife are perfect in their operation.

The Lace Hook and Hoof Hook formed on end of plier handle will be found convenient in many ways.

One Tool Does Not Interfere With the Free Use of Another Each One Works Independently

This knife is a marvel of mechanical ingenuity, embodying every essential element, viz.: Simplicity, Convenience, Durability, Smoothness and Strength. It is not heavy nor cumbersome. Perfect in operation. Made to sell on its Merits. Made to gain friends and keep them. A tool for any emergency.

"A Pocket Tool Chest for Automobilists"

Universally pronounced by automobile drivers, mechanics and electricians, the handiest tool ever invented. Compact, small, but does big work in any emergency.

From Willard W. Hubbard, Gen. Sales Agt. Vandalia Coal Co., Indianapolis, Ind.

"Your nine-tool knife is the handiest emergency tool I have ever had around an automobile. I can't imagine a more convenient combination to have in one's pocket about home and at all times. It is amazingly strong for its weight, and seems built to last. Usefulness considered, the price is very low."

From John F. McNamee, Editor and Manager Locomotive Firemen's Magazine, Indianapolis, Ind.

"This knife has proven to be very useful to me on several occasions since I came into possession of it, and I can personally add my testimonial to the many others already given, as to its desirability and adaptability in the performance of duties of the engineman."

From Geo. F. Kirkhoff, of Kirkhoff Bros., Plumbers, 11-15 N. New Jersey St., Indianapolis, Ind.

"Your knife has won a place for itself in my shop. My men pronounce it the handiest tool they have ever used, especially on a job outside the shop where a large number of tools cannot easily be carried. It is entirely practicable and stands a vast amount of rough usage."

We receive hundreds of voluntary testimonials from pleased users of the Devine Wonder Knife.

WE take great pride in our work, and are just as much interested in the satisfaction of our patrons as they themselves. It pays to advertise and that is what we are doing, and a pleased patron is one of our best advertisements. Remember, we make examinations free. Call and consult us about OUR splendid process of filling teeth. We are the only Dentists in the State using it, for it is a secret process. It is just what the people have wanted for years, inasmuch as it possesses all the following qualities: 1. It is suitable for both back and front teeth, and especially for large shelly cavities. We save many teeth that other Dentists have given up as hopeless. 2. It preserves the natural color and contour of the tooth structure. 3. It does not shrink from the walls of the cavity and fall out in two or three years, and 4, lastly, but by no means least, it is as hard as glass. What a list of splendid qualities to be possessed by one kind of filling material! So reliable is this Process of filling teeth that, to convince our patients of our sincerity, we guarantee these kinds of fillings for two years; that is, of course, where the circumstances are not too unfavorable, and if it is a case where that kind of filling should not be used, we will be honest and advise another kind. Now this does not mean that we expect our work to last only two or three years. We mean that if anything happens to our Process of filling, we will replace it at once free of extra charge inside of the time limit of our guarantee up to date, for we keep a written record of all our work to insure the patient and ourselves.

Remember Our Motto: "Prices Reasonable and Satisfaction Guaranteed."
